Personalised support for your business, cooperative or association

You are facing real challenges, but you lack the skills and the perspective you need to modernise. We are here to guide you through this change!

Qualified professionals at your disposal

1 **Flexibility**

Highly qualified people available for two hours, a day or several months.

2 **Flexible financing**

After reviewing your case, you will pay for these services once you are in a position to remunerate our experts.

Modernising your organisation

1

Review of your case

Assessment of your needs for effective modernisation and/or evaluation of a new project

2

Personalised support

Tailor-made assistance covering all your needs

3

Helping you bounce back and bring your project to life

We step in at the key stage in the development of your business

4

We guide you through the experimental method

This involves testing the validity of a hypothesis through repeated experiments, gathering new qualitative or quantitative data that either support or contradict the hypothesis behind your project

5

Strategic thinking

The aim is to avoid negative processes that could lead to self-exploitation, or to investments that are poorly calibrated or too small to deliver economically viable results

Adapting to your needs

Qualified staff

Experts matched to your specific requirements.

Flexible timing

Available to meet your needs in the short or long term.

Ongoing assessment

Regular monitoring to make sure your needs are met.

Clear, measurable objectives

1 **Identifying strengths**

Understanding your natural skills and strengths.

2 **Setting objectives**

Setting SMART objectives to give you a clear direction.

Tools and resources for development

Updating your knowledge

Training and information to enrich your skills and expand your network.

Prospecting in Europe

We support you in your first steps in prospecting for new clients across Europe.

Grants and funding

Are you aware of the various grants and funding available to businesses, cooperatives and associations? We can help you select the right ones and prepare your applications.

The benefits of imagination in your professional and personal life

1

Continuous Innovation

Imagination fosters continuous innovation and the growth of knowledge.

2

Personal Fulfilment

It leads to self-discovery and a sense of personal achievement.

3

Unlimited Creativity

It paves the way for boundless creativity, encouraging originality.

Welcome to a digital world

We are at the cutting edge of new technologies, especially in the digital field.

Digital technology is a central part of modern life and has changed the way we live and work. It continues to evolve rapidly, bringing new opportunities and new challenges for the future.

Our team

Consultants with diverse backgrounds

We are consultants with diverse backgrounds in business, consulting and academic research. We have lived through all the socio-economic upheavals that have reshaped our society over the past twenty years.

Benefits of modernisation

1

Continuous improvement

Constant evolution to stay competitive in the market.

2

Adapting to needs

Flexible responses for your clients and for potential new ones.

3

Growth opportunities

Potential expansion through new ideas and development across Europe.

Our society’s productive structure is becoming increasingly complex, so it is essential to understand it well. Where do you stand in this economic landscape?

We are here to help you face these situations and/or change course to bring new ventures to life.

How do we work?

Our support: qualified experts.

We are an association that has built a network of experts with diverse backgrounds in business, consulting and academic research. These experts have chosen to devote part of their time, without immediate payment, to helping project leaders. You will pay for these services no earlier than six months after they are delivered, once you are in a position to do so.
